

Digital Music Production

process of creation and recording music
using digital technology.

it's possible by using softwares called "DAW" and virtual
instruments and effects called "VST"

DAW, What does it mean ?

Digital Audio Workstation

VST, What does it mean ?

Virtual Studio Technology
plugin (software component)

Some examples

Is digital better hover traditional ?

digital benefits:

affordable

comfortable

flexibility

better control overall

easy acces

music theory not needed

What are you doing as a producer ?

- Create the instrumental
- Mix the instrumental
- Master the instrumental
